Head First! Leading a SAFe Culture Change with Positivity

A Positive Attitude Saved my Life

And enabled Dell IT’s Agile transformation
The Neuroscience of Positivity

Science has proven that a positive mindset leads to better results.

Neuroplasticity: change your brain based on what you think.
Changing Culture is only Changing Behaviors
Measure the Change…
Inspect what you Expect

From Customer Need to Business Outcome
Intentionally inject a positive mindset

When it all goes …wrong…
Post-Traumatic Growth
